Microsoft 365 Security Health Check Assessment

Get a comprehensive assessment report on your Microsoft 365 security and controls

Gain Insight Into Identity, Device, Data, and Application Controls

Constant evaluation and proactive measurement of your security posture helps keep your organization operating as securely as possible.

This three-week engagement with Bulletproof will allow you to uncover blind spots and potential problems within your Identity, Device, Data, and Application controls across your Microsoft 365 environment.

During the M365 Security Health Check, Bulletproof will:

Review Microsoft 365 security best practices and controls enabled across the environment
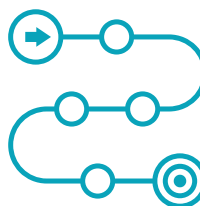

Highlight areas of improvements for Microsoft 365 security controls

Provide remediation recommendations for Microsoft 365 security controls

Highlight any risks and vulnerabilities in your tenant

Provide a roadmap of recommendations

M365 Areas to Scope
